

Our commitment to the environment

As the world's fresh water resources become more scarce and the impact of harsh chemicals damage our fragile environment, Dekonstrukt have recognised this problem and, in conjunction with a core group of our clients, we have implemented a regime of environmentally friendly best practices and range of bio degradable cleaning products that minimise our impact on the environment.

Demolition and Strip Outs

Dekonstrukt Creating Space provides a variety of demolition and strip out services for its customers. Such services include:

- > Removal of structural elements – walls, ceilings, doors, windows etc.
- > Removal of plant and equipment.
- > Pick up and removal of hard rubbish.
- > Experienced and skilled staff are used on all our work sites, our work is professionally undertaken and managed.
- > Our organisation operates to all occupational health and safety standards with regular training for our employees, good maintenance of all company equipment and best practices service delivery for our customers.

Gardening Maintenance & Cleaning

In addition to its demolition and strip out works, Dekonstrukt Creating Space provides gardening, landscaping and cleaning services for its customers.

- > No job is too small or big, we have landscaped small courtyards to large commercial projects, we provide temporary installations and permanent. Once the landscaping works are complete we can provide ongoing maintenance service for our clients so they need never have to worry about the upkeep.
- > We provide cleaning services on a commercial basis, small or large offices, indoor cleaning and cleaning and maintenance of outdoor areas and facilities.
- > Safety is of utmost importance, our employees are trained in the safe use of chemicals and equipment to ensure their personal safety and the safety of others.

Customer relationships are of particular importance to Dekonstrukt, we have continued our relationships with many core customers since the companies inception in 1995. Our philosophy is to work closely with our customers, listening to and providing for their needs, as their businesses grow, change and evolve, so does ours.
